

MXDR as a Service

Unified Security with 24x7 Monitoring, Detection and Response.
Gain Visibility. Safeguard Data. Manage Risk Across Your Organisation.

Powered by Microsoft Sentinel. Realised by CyberOne.

CyberOne's MXDR as a Service delivers 24x7 monitoring, threat detection and rapid response across your digital environment. Powered by Microsoft Sentinel's SIEM and SOAR capabilities, this service integrates diverse data sources for comprehensive security and compliance with minimal internal management overhead.

Part of CyberOne's Assure 365 suite, our fully outsourced Managed Microsoft Security solution offers modular cyber security services tailored to your needs. It delivers comprehensive, scalable protection to strengthen resilience and empower you to focus on your core business objectives.

What is Microsoft Sentinel?

Microsoft Sentinel is a scalable, cloud-native security solution that provides a comprehensive view of threats across your organisation. By aggregating data from Microsoft and non-Microsoft sources, it enables real-time detection, investigation and response with full visibility. Sentinel's advanced SIEM and SOAR capabilities support customisable incident workflows and compliance requirements.

Integrated seamlessly with Microsoft's Security suite, Sentinel centralises monitoring and automates response to empower proactive risk management.

CyberOne's MXDR as a Service, powered by Microsoft Sentinel, delivers 24x7 threat monitoring, automated response and actionable insights to protect your organisation minimising internal management overhead.

Key Features of CyberOne's MXDR as a Service

CyberOne's MXDR as a Service provides continuous monitoring, proactive threat detection and rapid response to protect your organisation from cyber threats. Powered by Microsoft Sentinel, our service integrates diverse data sources for organisation-wide visibility, automating responses and strengthening resilience.

 **Security Information & Event Management**
Real-time collection, analysis and correlation of security events from multiple data sources, providing a comprehensive view of threats.

 **Security Orchestration, Automation & Response**
Automated playbooks streamline incident response, ensuring swift, consistent actions across your environment.

 **Threat Intelligence Integration**
Enhanced detection with enriched threat intelligence, leveraging Microsoft and third-party sources for proactive defence.

 **Customisable Reporting & Dashboards**
Tailored dashboards and reports provide insights for key stakeholders, supporting informed decision-making and compliance.

 **Threat Hunting**
Proactive search for threats using machine learning and AI tools to detect suspicious activity and uncover hidden risks.

 **Incident Response**
Fully managed incident response services from triage to resolution, ensuring fast action to contain, remediate and recover.

 **24x7 Monitoring & Alerts**
Round-the-clock monitoring with real-time alerts ensure continuous protection and rapid response to emerging threats.

 **Compliance Support**
Supports regulatory requirements with detailed reporting and audit-ready insights to reduce compliance risk.

Unlock Business Value with CyberOne

24x7 Security Monitoring

Continuous monitoring and rapid response provide round-the-clock protection against evolving threats.

Flexible & Scalable Protection

Adaptable threat management scales with your organisation without disrupting daily workflows.

Enhanced Threat Intelligence

Leverage global threat intelligence sources to stay ahead of emerging risks and adapt to evolving cyber threats.

Swift & Proactive Response

Reduce business impact with automated playbooks and rapid, expert-led incident response.

Compliance-Ready Insights

Real-time analytics and reporting meet regulatory requirements and proactively manage compliance risks.

Streamlined Security Operations

Automate detection and response workflows to optimise resources and boost operational efficiency.

Seamless Experience

Secure sensitive data without disrupting workflows, enabling uninterrupted access to critical information.

Comprehensive Threat Visibility

Gain centralised insights into threats across systems and data sources for quicker detection and action.

User-Friendly Security

Strengthen security without compromising user productivity or access to essential tools.

Cost-Efficient Security Investment

Maximise your Microsoft investment by consolidating tools, lowering costs and enhancing security organisation-wide.

Why Choose CyberOne's MXDR as a Service?

Trusted by some of the world's most admired brands, CyberOne brings together top talent and advanced technologies to secure your mission-critical services. Our MXDR Service offers comprehensive protection and resilience, empowering organisations to operate securely and confidently.

1. Global Expertise

CyberOne's CREST-accredited SOC professionals bring extensive experience, ensuring robust protection across complex environments.

2. Microsoft Sentinel Expertise

CyberOne's Microsoft-certified experts optimise Sentinel's capabilities for your environment to maximise protection.

3. Proven Threat Detection Standards

Microsoft Advanced Specialisation in Threat Protection, CyberOne applies rigorous standards to ensure continuous protection of your critical assets.

4. 24x7 Threat Monitoring

Around-the-clock monitoring and alerting empower your organisation to stay ahead of threats and maintain operational continuity.

5. Maximised Microsoft ROI

Optimise your Sentinel and wider Microsoft ecosystem investment with our certified-experts, boosting efficiency and reducing costs across your organisation.

6. Insightful Reporting & Analytics

CyberOne's real-time insights empower your organisation with detailed reporting to inform strategy and meet audit requirements.

7. Proactive Risk Management

CyberOne's threat hunting and risk analysis tools actively identify and address vulnerabilities, minimising risks before they can impact your business operations.

8. Tailored Incident Response

Our NCSC Cyber Incident Response Level 2 accreditation demonstrates our capability to handle and remediate complex incidents

About CyberOne

CyberOne are trusted by some of the world's most admired brands and organisations, dedicated to securing their mission-critical services. Delivering measurable cyber resilience and proven protection through proactive threat detection, rapid response and continuous risk reduction—strengthening your security posture.

With 24x7 global SOC coverage, industry-recognised accreditations from NCSC and CREST and guaranteed SLAs, we combine Microsoft Security with world-class Consulting and Managed Services to safeguard your business from cyber threats, ensure regulatory compliance and empower you to thrive.
